

## KMC Rolls out ISO

Jan 7, 2017 – Subscribing to the standards set by the International Organization for Standardization, the Kingking Mining Corporation (KMC) embarked on elevating its current efforts in environmental preservation and protection. The Company endeavors to develop its systematic approach in managing its Kingking Mining Project's impacts on the environment. This Environmental Management System (EMS) or ISO 14001:2015 accreditation which the company hopes to obtain shall provide the Project's framework through which its environmental performance can be controlled and improved.

The company's EMS shall guide the company in minimizing its operation's negative effect on the environment. It shall also be an indispensable tool through which KMC shall comply with its legal obligations: Applicable laws, regulations, and other environmentally oriented requirements.

Moreover, it shall aid the Company to continually improve its processes while developing its Project. (source: Wikipedia)

On Dec. 19, 2016, coinciding with the Project's Christmas party celebration, by way of a Ceremonial Signing, all KMC employees vowed to faithfully pursue the Project's Environmental Policy to wit:

“Responsible Mining towards Sustainable Development”

*Operations Manager Petronilo Cancino explains the importance of the EMS process to rank and file employees*

“Kingking Mining Corporation commits to uphold responsible mining through respect for and protection of the people and the environment in all stages of its mining operations. We endeavor to comply with applicable environmental laws and regulations and meet or exceed international industry practice to avoid, minimize, mitigate or remediate environmental impacts.”

On Jan 5, 2017, KMP officially rolled out the implementation of ISO 14001 for both its Pantukan and Davao offices and areas, respectively.

In a statement addressed to all employees, Mr. Petronilo V. Cancino, KMP's Operations Manager commented, "The first roll-out was a good start for the year 2017 on the ISO 14001-2015 implementation. It was well attended and actively participated by all attendees. Let's continue to adapt this behavior and cooperate with active participation by all KMP employees for the success of the Environmental Management System of the Company. In the long run, it will benefit all of us, the Company and the community where we operate."
